BRIGHT HERMOSA BUILDERS INC.	Document No.	Section No.
	Effective Date:	Revision No.
	PROCEDURAL MANUAL	
	ACCREDITATION OF SUPPLIER	

OBJECTIVE	To ensure that the materials to be delivered on-site are from the qualified suppliers with safety, quality, timely delivery and cost-efficient products.
SCOPE	This procedure is a process of determining the suppliers who can supply good quality of products to the company.

Responsibility	Activities		Documents
Procurement	Identify New Suppliers	Note 1	*[F-AOS-001] Supplier Accreditation Form*
Procurement/ Contractor	Require Information from Potential Suppliers		*[F-AOS-001] Supplier Accreditation Form*
Project Engineer	Assess Potential Supplier	Note 2	*[F-AOS-001] Supplier Accreditation Form Requirements from Supplier*
	Accredited?	NO	*Result of Assessment*
	YES		
Procurement	Update List of Supplier/QNE		*List of Accredited Supplier*
Warehouseman/ Quality Control Purchasing and Logistics	Monitor and Evaluate Supplier's Product Quality	Note 3	*Supplier Evaluation Procedural Manual*

NOTE 1: [Identify New Supplier]

1. Procurement to determine the list of construction materials to be provided on-site.
2. Identify and look for prospective suppliers for each trade of materials.
3. Contact all prospective suppliers to coordinate if they can be one of our suppliers and request for the required documents for accreditation.

NOTE 2: [Assess Potential Supplier]

1. Assess prospective contractors based on the information provided and the criteria outlined in the Supplier Accreditation Form (SAF).
2. The Department Director and/or the assigned Engineer shall determine the requirements specification.
3. If a supplier has a "FAILED" status, the company can acquire the supplier and it will be discretion of the company.
4. When selecting a supplier, consider the safety, quality, timely delivery and cost efficient of the products.
5. Verify the supplier's capability to offer the requested materials by obtaining evidences (references, recommendations, letters, certifications, etc.) from the supplier. Supplier's location must be considered for timely delivery.
6. Here are the list of requirements from contractors for accreditation:
    a. Company Profile
    b. DTI/SEC
    c. Certificate of Registration (COR) BIR Form 2303
    d. Business Permit
    e. Copy of Sales/Billing Invoice and Official Receipt (OR)
    f. Organizational Chart

g. Vicinity Map of Office

NOTE 3: [Monitor and Evaluate Supplier's Product Quality]

1. Supplier performance should be monitored and evaluated. Refer to the Supplier Evaluation Procedural Manual for further information. Require existing/accredited suppliers to submit updated documented criteria for the materials they have submitted.
